

DESIGNER STYLE GUIDE

Paper cutout, warm craft, confident colour.

A practical handoff for the current CraftSky visual system: palette, type, components, motion, imagery, voice and asset references.

Built from docs/design/* and the Flutter theme in app/lib/theme/*.

BRAND IN ONE PARAGRAPH

- Warm cream paper, never sterile grey SaaS.
- Near-black ink rules and chunky outlines.
- Cobalt is primary; electric red is used sparingly.
- Photos sit on coloured paper rectangles.
- Typography should feel editorial, tactile and maker-friendly.

Product principles: no ads, chronological feed, creator-owned data, transparent business accounts.

Colour Palette

TOKENS AND USE

Paper

#F5EFE4

Primary page background.

Semantic Colour		MATERIAL MAPPING
ROLE	TOKEN	USE
Background	paper	Scaffold/page background.
Surface	paper3	Cards, dialogs, sheets pinned on top.
Primary	coba1t	Primary buttons, selected nav, links, brand emphasis.
Secondary/accent	red	Likes, destructive actions, sponsored disclosure, occasional accent.
Text 1	ink	Primary text and outer borders.
Text 2	ink2	Secondary text and explanations.
Text 3	ink3	Metadata and tertiary text.
Hairline	#16121026	Internal dividers only, not outer borders.

Colour Rules

KEEP TIGHT

- No gradients.
- No pure black. Use #161210.
- No pure white backgrounds except cards, sheets and modals.
- Cobalt is the only saturated blue.
- Red is the only saturated red and should feel special.
- Supporting swatches are backgrounds, never text colours.

Typography

GOOGLE FONTS

STYLE	FAMILY	SPEC	SAMPLE
Display large	DM Serif Display	96px / 0.95 / -2.4px	Make it feel handmade.
Display medium	DM Serif Display	64px / 1.02 / -1.28px	Old-book warmth.
Headline large	Outfit 800	42px / 1.1 / -1.26px	Confident UI heading
Title	Outfit 600-700	14-20px / 1.25-1.3	Project cards and sections
Body	Outfit 400	16px / 1.5	Roomy enough for notes, captions, field help and profile bios.

sp3 12

sp4 16

sp5 24

sp6 32

sp7 48

sp8 64

sp9 96

Use a 4px half-step only when the UI needs small internal rhythm. Mobile hit targets should not go below 44px.

Radii and Shadows

PAPER FEEL

RADII	0, 2, 6, 14, 22, 999
CARDS	14px radius, 1.5px ink border.
PILLS	999px radius for chips and primary buttons.
HARD DROP	3/6/10px down-right, solid ink.
SOFT PAPER	Only for true floating sheets, modals and popovers.

Component Direction

UI EXAMPLES

Buttons

Primary pill buttons have a hard offset shadow. Pressed state collapses the shadow.

Chips

Chips are outlined pills. Status colours are direct swatches.

Fields

PATTERN NAME

e.g. Wiksten Haori

Labels live outside fields. Inputs use white fill, 14px corners, ink outline.

Photo treatment

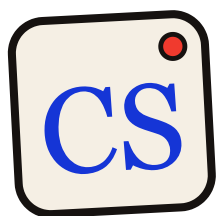

Photography sits on a coloured paper rectangle with 4-12px visible edge.

Logo

CURRENT ASSETS

CraftSky

CraftSky

The mark is intentionally a little rotated and tactile. Keep the red dot as a small accent, not a large brand device.

Icons

CRAFT SET

Knitting

Crochet

Sewing

Quilting

Icons are single-colour SVG strokes using `currentColor`, 1.5px stroke, round caps and joins.

Imagery

PHOTO DIRECTION

- Warm natural light: morning or afternoon, not strip-lit studio.
- Hands and material in-frame: yarn, fabric, paper patterns, cutting mats.
- Real homes and real makers over slick studio setups.
- Light grain and matte finish are welcome.
- Use tight crops with craft detail. Avoid generic lifestyle stock.

Motion

QUIET POP

- Fast UI feedback: 120ms.
- Entrances: 220ms.
- Modals: 320ms.
- Default ease: `cubic-bezier(0.22, 0.61, 0.36, 1)`.
- Pop ease: `cubic-bezier(0.34, 1.56, 0.64, 1)`.

Do and Do Not

FAST GUARDRAILS

Do

- Use warm paper backgrounds and crisp ink borders.
- Make display type large and editorial.
- Use cobalt for primary action and selected state.
- Put photos on coloured paper cutouts.
- Use direct, plainspoken, slightly cheeky copy.

Do not

- Do not add gradients, glassmorphism or blur-heavy chrome.
- Do not use muted SaaS greys as core surfaces.
- Do not use red everywhere. It should still punch.
- Do not round everything softly; the system needs cut edges.
- Do not use emoji in system chrome.
